COLUMBUS

Sailing, sailing, o'er ~~a sea of~~ the ocean blue,
Columbus came in 1492.
He braved the sea to prove the earth was round
And so our own dear land was found.

Tiny Tunes for Tiny Tots

By A. Louis Scarmolin. Price, 60 cents

The author of this little book has been most successful in combining material adapted for very young students with musical devices usually found in more advanced pieces. The little numbers have attractive titles. Each of these titles has been used as a theme or sentence, which the composer has developed along polyphonic lines, but in a very simple manner, giving the young player some idea of counterpoint.
